

THE POSITION
Senior Field Engineer

EDUCATION

Diploma or Bachelor's Technology (electronics, materials and manufacturing, mechanical and mechatronics)

THE IDEAL CANDIDATE

We seek new graduates in technology who are willing to learn, analyse and improve technical competencies in order to give the best. We'll provide the new talents with opportunities to attend a technical training on and off the job with our senior staff in order to gain knowledge and competencies for:

- Maximize production
- Monitor and coordinate training and technical support to customers
- Troubleshooting and problem solving
- Operate and/or support testing events, validation and preflight projects
